Profile

A dedicated and enthusiastic third-year B.Tech CSE student with a strong foundation in programming and full stack development. Proficient in C, C++, Python, and Java, with hands-on knowledge of modern web technologies and full stack frameworks. Passionate about building efficient, user-friendly, and scalable applications while continuously learning and adapting to emerging technologies. Strong problem-solving skills, teamwork, and communication abilities, with a keen interest in applying technical expertise to real-world projects. Currently seeking internship opportunities to gain industry experience and contribute effectively to innovative development teams.

Education

Bachelor of Technology 2023 – 2027 | Dehradun
Uttaranchal University
Third-year B.Tech CSE student with strong skills in C, C++, Python, Java, and full stack development. Passionate about creating efficient applications and eager to gain industry experience through internship opportunities.

Certificates

- Summer Internship 2024
  IIT Roorkee
- Java Programming
  Cetpa Infotech
- Summer Internship 2025
  IIT Roorkee
- Full Stack Development
  Zenus Infotech Ltd
- Web Development
  Internpe

Skills

C & C++ — Strong foundation in problem-solving, data structures, and algorithms. • **Java** — Object-oriented programming and application development. • **Python** — Scripting, automation, and backend development • **Full Stack Development** — Proficient in front-end and back-end technologies for building scalable web applications.

Projects

Weather App 06/2025 – 07/2025
Weather Detailing Platform
Developed a responsive weather application using full stack technologies that provides real-time weather updates based on user location or city search. Integrated APIs for live data, implemented a clean user interface, and ensured smooth functionality across devices.
